Date: March 26, 2020 - Revised

TO: All Platts CGPR Subscribers

SUBSCRIBER NOTE: S&P Global proposes changes to Enerdata daily natural gas indices

Following a period of market feedback and review of existing Canadian Enerdata Ltd. natural gas pricing, S&P Global Platts is proposing the following discontinuations, consolidations and additions to the daily Enerdata indices from June 1, 2020 trade date.

- Add daily NGX locations that are currently not published in existing Enerdata publications for complete record of NGX contracts
